

Job Description Job title:

Teacher of IB MYP Science

Reports to: Secondary Principal

Location: Xi'an Liangjiatan International School

Start date: August 2023

Scope and purpose of the job:

In order to fill this role effectively, the successful candidate will need to have a diverse range of qualities, competencies and experience. The successful candidate should be an outstanding teacher, learner, motivator and communicator, with excellent interpersonal skills. The successful candidate should be able to provide professional expertise, and high quality teaching and learning. The successful candidate should make effective use of resources and ensure improved standards of learning, high performance and achievement for all students. The successful candidate should be flexible, creative and innovative and should be able to collaborate with colleagues in the division and in the school.

The role assumes professional responsibility for providing, leading and facilitating diverse and effective learning experiences using a range of experimental methods in a supportive and positive climate across the secondary school. The successful candidate should be an adaptable and inspiring educator, with the ability to deliver a coherent, balanced, integrated, inquiry-based programme and should be capable of preparing students for international programmes in a stimulating, challenging and well-organised learning environment.

Qualifications and experience:

- Holds at least a Bachelor Degree in Science.
- Qualified teacher status appropriate to the teaching duties to be undertaken.
- Proven experience and depth of knowledge in Science teaching at middle school
- Proven experience and depth of secondary school Science teaching.

Key tasks and responsibilities

The teacher of MYP Science is expected to:

- Work with staff and pupils in the Secondary section of the school, with responsibility to introduce and develop the concepts, processes and skills of the Science curriculum.
- Keep up to date with the latest developments for use in teaching and learning.
- Collaborate with colleagues in the development of the Science curriculum.

Other responsibilities

- Any other appropriate duties as allocated by the Secondary Principal or Head of School.
- Contribute to the school's extra-curricular programme
- Adhere to all school policies
- Establish and develop close relationships with parents and the community, specifically building and maintaining relationships with other relevant people and agencies.
- Communicate effectively (both written and verbal) to a variety of audiences.
